PROFILE SUMMARY

.NET Full Stack Developer with 2.6 years of experience building scalable web applications using **ASP.NET Core, MVC, Web API, C#, JavaScript, Angular** and **SQL Server**. Skilled in developing robust backend services and responsive UI components. Looking to contribute my technical expertise and teamwork skills to a growth-driven development environment.

TECHNICAL SKILLS

- **Languages** : C#, JavaScript, Angular
- **Frameworks** : ASP.NET Core, LINQ, ASP.NET MVC, Web API, ASP.NET, Entity Framework Core, ADO.NET
- **Database** : SQL Server 2017, SSMS
- **Cloud Platform** : Microsoft Azure
- **Web & UI** : HTML5, CSS3, jQuery
- **Development** : Visual Studio 2019
- **Version Control** : Git, GitHub, Jira
- **Methodologies**: Agile, Scrum, SDLC

KEY ACHIEVEMENTS

- Improved application performance and user experience using async/await methods and backend optimizations.
- Created reusable components to simplify workflows and reduce development time.
- Strengthened code quality through clean, modular, and maintainable coding practices.

EDUCATION

- Samuel College, Tuticorin
Mechanical Engineering
CGPA: 7.8
- Hindu Higher Secondary School, Tuticorin (HSC)
CGPA: 7.3
- Hindu Higher Secondary School, Tuticorin (SSLC)
CGPA: 7.9

WORKING EXPERIENCE

Assistant System Engineer

July 2023 - Present

Statistical Software Solutions

- Developed and maintained core modules for invoicing, lead management, payments, and transactions to support smooth business operations.
- Built responsive UI components using HTML, CSS, JavaScript, Angular, Bootstrap, and jQuery for cross-device compatibility.
- Implemented AJAX-based interactions to enable real-time updates and reduce unnecessary page reloads.
- Applied business logic and data validations to ensure accuracy, consistency, and application reliability.
- Enhanced existing modules through performance optimization and code improvements, improving overall speed and user experience significantly.

PROJECT

KITT Business Software (KTB)

Tech Stack

ASP.NET Core, C#, MVC, Web API, JavaScript, Angular HTML5, CSS3, Bootstrap, SQL Server 2017, Git, Jira

- Built KITT Business Software RESTful APIs using ASP.NET Core for invoicing, lead management, and secure user management modules.
- Created business-focused UI screens for dashboards and workflows using HTML, CSS, JavaScript, Angular and Bootstrap to support daily operations and improve usability.
- Designed and optimized SQL Server database structures with indexing and constraints to ensure performance, security, and data integrity.
- Implemented role-based access control, real-time updates, and core business modules, and collaborated in an Agile team using Git and Jira.
