- divakarbabu5533@gmail.com
- Chennai, Tamil Nadu

TECHNICAL SKILLS

- Languages:** C#, SQL
- .NET Versions:** .NET Framework 4.6, 4.7, .NET Core 3.0, 6.0, 8.0
- Frameworks:** Entity Framework (ORM), MVC, ASP.NET MVC, ASP.NET Web API, Dapper, ADO.NET
- Scripting:** JavaScript (ES6)
- Database:** SQL Server 2017/2019
- Design:** HTML5, CSS3, Bootstrap
- Version Control:** Git, GitHub Copilot

KEY ACHIEVEMENTS

- Delivered end-to-end HR and payroll modules, reducing manual HR work and improving system efficiency.
- Improved employee engagement tracking and reduced complaint resolution time by ~30–35%.

EDUCATION

- Bachelor's Degree in Sri Muthukumaran Arts and Science College Percentage: 86%
- AVICHI HR SEC SCHOOL HSC – 73.6%
- AVICHI HR SEC SCHOOL SSLC – 73.6%

PROFILE

.NET Developer with 2.3+ years of experience in designing and deploying web applications using C#, ASP.NET Core MVC, Web API. Skilled in Entity Framework Core, Dapper, ADO.NET, OOP, LINQ, SOLID principles, design patterns, and N-Tier architecture. Experienced in RESTful APIs, microservices, RBAC authentication and authorization, and SQL Server. Familiar with HTML, CSS, JavaScript, Bootstrap, API Gateway (Ocelot), Payment Gateway (Razor pay), and tools like Git, GitHub, Postman, Swagger, Azure, IIS, and Jira (Agile Scrum) to deliver robust solutions.

WORK EXPERIENCE

Hi Exceed – Programmer Analyst (2023–Present)

Project - BMSoft – HR & Payroll Management System

Technology: ASP.NET MVC, Web API, HTML, CSS, JavaScript, SQL Server, Bootstrap, Entity Framework Core, JWT Authentication.

Project Summary: Developed a centralized HRMS and Payroll Management System to automate and streamline HR operations, payroll processing, and audit compliance for organizations. The application integrates employee management, attendance tracking, payroll calculation, statutory deductions, and audit reporting into a single secure platform. It enables real-time data validation, role-based access control, and audit trail monitoring to ensure accuracy, regulatory compliance, and operational transparency. The system improves efficiency by reducing manual effort, minimizing payroll errors, and providing reliable financial, payroll, and compliance reports for management and auditors.

ROLES & RESPONSIBILITIES

- Enhanced and maintained 13+ RESTful APIs supporting 5+ core modules and 1,000+ employee records.
- Implemented CRUD operations for employee, payroll, user, and admin modules using Entity Framework Core.
- Designed and optimized SQL Server schemas, stored procedures, and queries, improving performance and data integrity.
- Integrated role-based access control (RBAC) to ensure secure access for HR users, auditors, and administrators.
- Performed API testing and documentation using Postman and Swagger.
- Performed testing, debugging, and bug resolution to ensure application reliability and security.
