

HARISH E

Quality Engineer | QA Consultant | Chennai, India | 7358638721 | harishelumalaih@gmail.com |

SUMMARY

Engineering graduate with 1+Year of experience in manual and automation testing of web and mobile applications. Skilled in Appium, Selenium, Cypress, and API testing with Postman, with hands-on exposure to Agile methodologies. Currently working as a QA Engineer, ensuring high-quality product delivery through functional and regression testing.

EXPERIENCE

QA Engineer | Automation Testing | Wisebulls Fintech | MAY 2025 – PRESENT

Roles & Responsibilities:

- Experience in Testing Android Applications.
- Developed and executed automated test cases for native Android applications using **Appium** with **WebdriverIO** in **JavaScript/TypeScript**.
- **Developed automated test scripts for web applications using Cypress with JavaScript**, focusing on functional and regression testing.
- **Performed end-to-end (E2E) testing** for both web and mobile applications to ensure seamless user workflows.
- Automated end-to-end test flows including login, registration, OTP verification, and critical user journeys.
- Utilized **Appium Inspector** and **UIAutomator Viewer** for locating and inspecting mobile UI elements.
- Applied **POM (Page Object Model)** design pattern for better code structure and reusability.
- **Created detailed test cases for CTA (Call-to-Action) functionalities** to validate user engagement and conversion flow.
- Implemented **explicit waits** to handle dynamic content and asynchronous element loading.
- Executed tests on **Android Emulator** and real devices across different OS versions.
- Collaborated with developers and QA team for defect triaging and issue resolution.
- Used **Git** for version control and contributed to test execution pipelines using **GitHub Actions**.
- Performed basic load and performance analysis in collaboration with the development team (Grafana, API response metrics).
- Documented defects, reported bugs, and tracked them using **JIRA**.

QA Engineer -Part Time Consultant Sprngpod (AI-powered SaaS Platform) | October 2025 – –PRESENT

Roles & Responsibilities:

- Testing **Valerie**, an AI-powered voice assistant platform across **mobile and device-based environments**
- Performed **manual and automation testing** for web and Android applications
- Validated **AI conversation flows**, voice commands, fallback responses, and error handling
- Tested **multi-device and multi-location scenarios** (Entryphone, virtual intercoms, QR-based access)
- Identified and reported **UI, functional, data consistency, and backend integration issues**
- Created detailed **test cases, test scenarios, and JIRA tickets** with clear reproduction steps
- Performed **network throttling, offline/poor network testing**, and recovery validations
- Collaborated closely with developers and product owners during sprint cycles

Research and Development Intern | Elisar Vision Technology | JUL 2024 – 2025 JAN

Roles & Responsibilities:

- Experience in Testing Applications of Ophthalmological products.
- Develop Test plan and worked on the reviews provided by fellow teammates.
- Validating AVA and NOA with Manual UI Testing.
- Worked on testing the REST interfaces of AVA and NOA.
- Performed FTC and FVTR for all major releases.
- Automated REST API testcase of new functionalities by understanding the Framework.
- Developing automation scripts using JAVA for API automation.
- Trigger runs on Jenkins for implementation of Continuous Test (CT).
- Raising issues and Bugs in ADO Board.

EDUCATION

BACHELOR OF ENGINEERING, ECE| 2021-2024 | Sri Sairam Engineering College, Anna University | 7.02 CGPA

DIPLOMA, ECE| 2018 - 2021 | Sri Sairam Polytechnic College | CHENNAI | 76.5% |

SSLC| 2017 - 2018 | St. Josephs Matriculation Higher Secondary SCHOOL | CHENNAI | 61% |

SKILLS

- SDLC/STLC
- UI Automation
- API Testing
- Problem Solving
- Appium
- Java Script
- Functional/Regression Testing
- Software Testing
- Cypress
- Android Studio

LANGUAGES

- English
- Tamil

TECHINICAL QUALIFICATIONS

- Good Knowledge and Hands-on experience on Manual and Automation Testing.
- Strong in Software Test Life Cycle (STLC) and SDLC in Agile.
- Proficient in Functional, Integration, System and Regression Testing. ● Good Knowledge on Defect/Bug Life cycle.
- Experience in **Mobile Application Testing (Android)** using **Appium and WebDriverIO**.
- Knowledge of **Mobile Debugging Tools** (ADB, UIAutomatorViewer) ● Good Knowledge on Object Oriented Programming
- Experience in automation testing using Java.
- Experience in **Web Automation Testing** using **Selenium WebDriver** and **Cypress** frameworks ● Ability to handle multiple tasks and work independently as well as in a team.
- Good interpersonal skills, commitment, result oriented, hard working with a quest and zeal to learn new technologies and undertake challenging tasks.
- **Tools:**
 - Programming Languages: Java Script.
 - Testing: Manual and Automation.
 - Mobile Testing Tools : Appium,, ADB, UIAutomatorViewer , Android Studio.
 - Other Tool Skills: Azure DevOps, TestNG Framework, Postman, Grafana .

SOFT SKILLS

- Collaboration
- Multi-Tasking
- Result Driven

CERTIFICATIONS

- Ui Path Certified: Diploma in UI Automation.
- Introduction To Software Testing In Agile.
- Generative AI: Prompt Engineering.
- API Basics 1: Build a Bot (Fetch, JSON & Async JavaScript)

PROJECTS

Touchless Doorbell:

- A security system integrated with door using arduino and IR sensor. **Pest Detection**

Using YOLO and CNN:

- Paper on fruit, crop pest detection: YOLO, CNN, feature extraction, 92.11% accuracy.

Design A PIFA Antenna for Health Care Application:

- Low-cost PIFA antenna designed for healthcare application using COMSOL.
