

SURYA PRAKASH R

Senior QA Engineer | Manual Testing Specialist

Chennai, India | kanagsurya037@gmail.com | +91 63832 30412 | +91 87785 08277

PROFESSIONAL SUMMARY

Senior QA Engineer with 3.7+ years of hands-on experience in Manual Testing across SaaS, Web, API, and Network applications. Strong expertise in end-to-end test execution, test planning, defect management, and sprint ownership in Agile environments. Proven track record of managing multiple projects simultaneously with 100% on-time delivery under tight deadlines. Experienced Scrum Master skilled in sprint coordination and cross-team collaboration. Basic automation knowledge in Playwright and Selenium. Seeking a stable QA role valuing manual testing expertise and reliability.

CORE SKILLS

Manual Testing • Functional Testing • Regression Testing • API Testing (Postman) • Network Testing (Netmiko) • Test Planning • Test Execution • Defect Management • SDLC/STLC • Agile/Scrum • Scrum Master • Sprint Planning • JIRA • Cross-Browser Testing • UAT • Exploratory Testing • Python (Basic) • Selenium • Playwright • Git • Jenkins • Linux/Windows • Api Automation

PROFESSIONAL EXPERIENCE

Senior QA Engineer

Ticvic Technologies, Chennai | Jan 2022 – Present

- Owned end-to-end manual testing for 6+ concurrent projects (SaaS, e-commerce, enterprise apps) with 100% on-time delivery despite high-pressure timelines
- Served as Scrum Master for 10+ sprints, facilitating sprint planning, daily standups, backlog grooming, and retrospectives for cross-functional teams
- Designed and executed 500+ comprehensive test cases covering functional, regression, smoke, sanity, and integration testing
- Performed extensive API testing using Postman for 100+ REST APIs and WebSocket connections, validating request/response, status codes, and error handling
- Conducted network testing and basic automation using Netmiko for firewall configurations and routing validation in SaaS products
- Managed complete defect lifecycle in JIRA with detailed reproduction steps, root cause analysis, and developer collaboration for quick resolution
- Executed cross-browser (Chrome, Firefox, Safari, Edge) and mobile (iOS, Android) testing ensuring consistent user experience
- Mentored 3 junior QA engineers on manual testing practices, API testing, defect reporting, and Agile processes
- Analyzed Jenkins build failures and coordinated with DevOps teams for resolution, ensuring stable CI/CD pipelines
- Gained hands-on experience writing basic automation scripts using Playwright and Selenium (Python) for repetitive scenarios

KEY PROJECT CONTRIBUTIONS

IBS & PathMetrics – SaaS Products

- Manual testing for dashboards, access control, onboarding, integrations, reporting, and analytics modules
- API testing using Postman for backend services; network testing using Netmiko for device configurations
- Created basic automation scripts using Playwright for critical regression scenarios

E-Commerce Platform

- End-to-end testing for catalog, cart, checkout, payment gateway, and order management
- API testing for order processing and user services; WebSocket validation; mobile testing on iOS/Android

Feedback Management & QR Scanner Systems

- Validated complex workflows, data accuracy, UI/UX, and API integrations
- Created smoke test automation for critical user flows

Automotive Industry Project

- Functional testing, detailed defect reporting, UAT, and production readiness validation

TECHNICAL SKILLS

Testing: Functional, Regression, Smoke, Sanity, Integration, System, E2E, UAT, Exploratory, Ad-hoc, Cross-Browser, Mobile

API & Network: Postman (REST/WebSocket), Python Requests, Netmiko, Network Device Testing, Configuration Validation

Test Management: Test Planning, Test Case Design, Test Execution, Defect Management, Test Documentation, JIRA, TestRail

Agile & Scrum: Scrum Master, Sprint Planning, Daily Standups, Backlog Grooming, Retrospectives, User Story Analysis

Automation (Basic): Playwright (Python), Selenium WebDriver (Python), Basic Test Scripts, Python Scripting

Tools & Platforms: JIRA, Postman, Git/GitHub, Jenkins, Confluence, Chrome DevTools, Windows, Linux, macOS

KEY STRENGTHS

- Proven ability to manage multiple concurrent projects and deliver quality testing under tight deadlines and high-pressure situations
- Strong time management and prioritization with 100% on-time delivery track record
- Deep product understanding enabling effective bug identification and quality advocacy
- Effective cross-team collaboration and communication with developers, PMs, and stakeholders
- Demonstrated leadership through Scrum Master role and junior team member mentoring

EDUCATION

Bachelor of Engineering (B.E.) in Mechanical Engineering | Srividya College of Engineering & Technology, Virudhunagar | 2022 | 87%

LEADERSHIP & INITIATIVES

- Contributed QA process improvement ideas improving team testing efficiency by 20%
- Conceptualized two internal QA tools (Testrix, TestPilot) and participated in POC discussions
- Led knowledge sharing sessions on API testing, Postman techniques, and defect management
