TESTING SKILLS

- Selenium web driver
- JAVA
- Maven
- STLC
- SDLC
- JIRA
- Agile
- SQL
- Automation Testing
- Manual Testing
- Unit Testing
- Functional Testing
- API Testing
- Cucumber
- Testng
- Junit
- Jenkins
- Github
- Playwright
- JS

Priyanka Bhadran

SOFTWARE TESTER

Enthusiastic QA Tester with 4.6 years of experience in Test Design, Manual, Automation, API Testing, UI Testing and Java, desirous of a role in Software Testing to help the organization in the development and execution of overall testing strategy.

PROFESSIONAL EXPERIENCE

YOULOGIX INFOTECH PRIVATE LIMITED

Jan 2024 - PRESENT

Best Buy (E-commerce) | Software Tester

- **Designed, developed, and executed** automated test cases using **Selenium WebDriver** with **Java** and **JUnit**, ensuring comprehensive coverage of functional requirements and improving testing efficiency.
- **Executed and debugged** automated test scripts to identify issues, analyze failures, and provide detailed reports, helping the development team quickly resolve defects.
- Performed **retesting** of resolved defects to validate the effectiveness of fixes and ensure no regression issues were introduced.
- Successfully **automated multiple critical modules** including **Login, Product Add/Edit, Order Search, and Report Download**, reducing manual testing efforts and improving release speed.
- Utilized **XPath** and **CSS Selectors** to accurately identify and interact with dynamic web elements, ensuring script stability across UI changes.
- Implemented the **Page Object Model (POM)** framework to create structured, maintainable, and reusable test scripts, reducing script maintenance time.
- Managed **test data creation, storage, and retrieval**, and developed **reusable utility methods** to optimize automation workflows.
- Used **JIRA** to log, track, and manage defects, providing detailed descriptions, steps to reproduce, screenshots, and status updates for effective collaboration with developers.
- Actively participated in **daily stand-up meetings** as part of the Agile/Scrum process, discussing defect status, test coverage, blockers, and progress updates to ensure smooth sprint deliveries.

EDUCATION

2009 – 2013

B.Tech – CSC

COLLEGE OF ENGINEERING

CHENGANNUR

CGPA – 59.6 %

LANGUAGES

- Tamil
- English

YOULOGIX INFOTECH PRIVATE LIMITED

e-Bay US – E-Commerce Web Application Testing Jun 2021 - Dec 2023

- Analyzed **eBay e-commerce requirements and prepared detailed test scenarios and test cases** for login, search, cart, and checkout modules.
- Performed **manual testing (Smoke, Sanity, Functional & Regression testing) on web application** to ensure stable releases.
- Identified, logged, and tracked defects in **JIRA** with proper severity and priority and coordinated with developers for fixes.
- Validated **payment flow, order placement**, and user profile features using positive and **negative test cases**.
- Prepared **daily test execution reports** and defect status reports and participated in review meetings
- Developed and executed automation **test scripts using Selenium WebDriver with Java** for major eBay modules like login, search, cart, and checkout.
- Implemented **TestNG framework with annotations, assertions**, and grouping to manage test execution efficiently.
- Used **Maven for dependency** management and Git for version control of automation scripts.
- Performed **cross-browser testing** (Chrome, Firefox, Edge) and executed test suites as part of regression testing.
- Generated and analyzed automation **test reports Excel** updated test results in **JIRA**.
